

SAHIL ALI

📍 Ranchi, Jharkhand ✉ alisahil8210@gmail.com ☎ +918210672479 in [sahilali8210](#) 🌐 [AlixSahil](#)

Education

M.C.A Birla Institute of Technology, Mesra	2023 – 2025 CGPA: 8.23
B.C.A Techno India University, Kolkata	2019 – 2022 CGPA: 8.39

Experience

Full Stack Software Developer – *Minu Marketing Pvt. Ltd.*, Ranchi *June 2026 – Present*

- Modernizing legacy applications through framework upgrades, performance optimization, and security enhancements to improve scalability and maintainability.
- Developing scalable full-stack applications, REST APIs, and database-driven solutions using software engineering best practices.
- Building automation platforms and AI-powered solutions to streamline business workflows and improve operational efficiency.

Software Developer Trainee – *Aditya Birla Group Hindalco*, Muri, Jharkhand *April 2025 – April 2026*

- Built and maintained scalable enterprise applications across the full SDLC, including system design, API development, database optimization, testing, deployment, and production support, driving digital transformation initiatives.
- Developed workflow automation, employee onboarding, feedback management, inventory tracking, event registration, and maintenance management solutions, significantly improving operational efficiency and reducing manual processes.
- Designed data-driven platforms featuring automated scheduling, real-time dashboards, reporting, alerts, QR-based workflows, and process monitoring to enhance business visibility, compliance, and decision-making.

AI & ML Intern – *YBI Foundation* (Remote) *June 2024 – July 2024*

- Developed ML models for salary prediction, credit card fraud detection, and diabetes classification using Python, Scikit-learn, Keras, Pandas, and Minisom.
- Applied data preprocessing, feature engineering, and model evaluation techniques to build end-to-end ML workflows.

Skills/Technical Expertise

Software Engineering: DSA, OOP, System Design, SDLC, Optimization

Languages: Python, Java, C, SQL, PL/SQL

Frontend: HTML5, CSS3, JavaScript, React.js, Tailwind CSS

Backend: Node.js, Express.js, Django, FastAPI

Database: Oracle, PostgreSQL, MySQL, MongoDB, Firebase

Tools & Platforms: Git, Oracle APEX, WordPress, Docker, VPS

AI & Automation Tools: Claude, ChatGPT, Copilot, Antigravity, n8n

Certifications

APEX Cloud Developer Professional | [Oracle](#) 🔗

Cloud Infrastructure 2025 Foundations Associate | [Oracle](#) 🔗

Google IT Automation with Python | [Coursera](#) 🔗

Data Analytics Job Simulation | [Deloitte](#) 🔗

Achievements

- Received a **Letter of Recommendation** from **Aditya Birla Group Hindalco** for contributions towards enterprise application development and digitalization initiatives.
- Awarded the Hindalco Role Model **Bhoomika Certificate** for ownership, collaboration, and impactful contribution during apprenticeship.
- Led the **first-ever in-house** application development initiatives and successfully delivered multiple impactful digitization projects improving operational efficiency and process automation.
